

GETTING SET UP / INSTALLING WAGON

Wagon is the tool we'll use to explore and query our database. This guide will help you install it. See the next lecture for a video walkthrough and tour of the tool.

Step 1:

Go to www.wagonhq.com and put in your name and email address (use a real email address because they'll send you directions). Click "Sign up!"

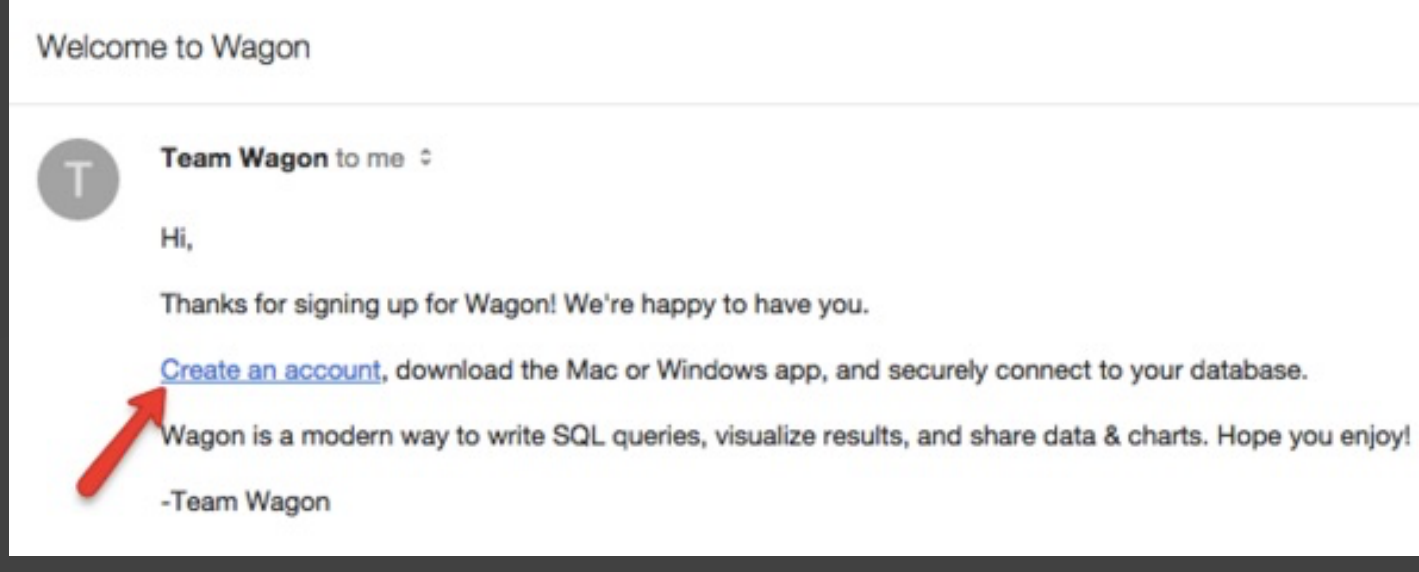

Step 2:

Go to your email inbox and open the email from Team Wagon

Step 3:

Click the "create an account" link in their email

Step 4:

Create an Account (put something unique for your team name)

Sign up for Wagon

Full name

Peter SQLforNewbs

Company or team name

SQL for Newbs

Email

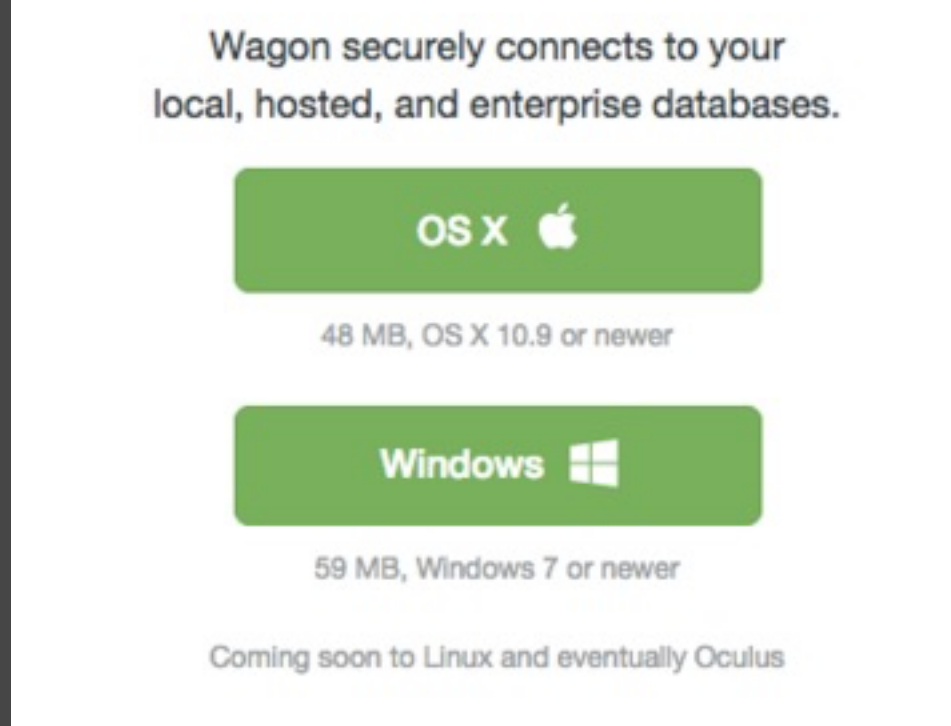

Password

Repeat Password

Sign Up >

Step 5:

If you have a Mac, download the OS X app, if you have Windows, download the Windows App:

Step 6:

Follow the directions to install the app and then open it up and sign in:

Wagon is a modern SQL editor

Write queries, analyze results, and collaborate with your team
